

June 11, 2009

To our valued Medicaid Practitioners:

As you know, the State of Delaware is facing an unprecedented \$800 million shortfall for State Fiscal year 2010. Because the Medicaid Program accounts for a large percentage of the State's budget, we have had to implement broad-based cost savings measures which impact the rates paid to our provider community – hospitals, nursing facilities, dentists, physicians, and pharmacies. While rate reductions are a real hardship on our providers, we appreciate your patience and understanding as we persevere through this current economic crisis. The alternative would have been to terminate coverage for over 20,000 Medicaid beneficiaries.

One of our pharmacy chain providers, Walgreens/Happy Harry's, has decided to end its participation in the State's medical assistance programs as the result of the necessary rate reductions. Walgreens/Happy Harry's will no longer fill prescriptions for individuals enrolled in Medicaid, Delaware Healthy Children Program, Delaware Prescription Assistance Program, Chronic Renal Disease Program, and Delaware Cancer Treatment Program as of July 6, 2009. This turn of events is unfortunate, but there remains adequate access to prescription coverage through the 100+ other pharmacies enrolled in the Medicaid Program. These pharmacies do have the capacity to accommodate the volume of patients who will rely on their services after July 5th. A list of participating pharmacies which will honor Medicaid prescriptions is enclosed with this letter. You can also find a complete list of the pharmacies on our web site at www.dhss.delaware.gov

We have launched a comprehensive outreach campaign via TV, radio, print and the DHSS web site as part of our effort to inform the Medicaid population about Walgreens/Happy Harry's exit from the program. Through this campaign, we are spreading the message about how clients can transfer their prescriptions and which pharmacies continue to participate in Medicaid. Additionally, we are sending notices to all recipient households and preparing posters to be placed in pharmacies, State Service Centers, and other locations frequented by our recipients.

In our notice to our recipients we are providing the following instructions for refilling prescriptions where their current pharmacy is Walgreens/Happy Harry's:

If you have refills prescribed that you need to fill:

- Simply take your prescription bottle to your new pharmacy and ask to have your refills transferred;

OR

- If you do not have your prescription bottle, you may ask your doctor's office to call in the prescription for you at your new pharmacy. Please understand that your doctor's office may be experiencing a high volume of calls at this time, so please be patient. You do not have to call your doctor before July 6th to transfer your prescriptions, you simply need to select a new pharmacy.

We expect that most clients will navigate this process successfully and that the instructions will keep calls to physicians' offices to a minimum. Should your patients call your office with questions about how to fill their prescriptions, we appreciate your sharing this same guidance.

We realize that some disruption and inconvenience is inevitable for clients and providers during this transition, and for that we apologize. Our ultimate goal is to try to limit that disruption while assuring access to medically necessary care. If you have any questions please contact EDS Provider Relations at 1-800-999-3371.

Sincerely,

Rosanne Mahaney
Acting Director
Division of Medicaid & Medical Assistance
